Maximum Boat Dimensions

How to Measure Your Overall Boat Length

The overall length of your boat includes all extensions like anchors, swim platforms, and rudders, etc. Do not rely on your boat manufacturer's factory measurements as they typically do not include the extensions.

OVERALL BOAT LENGTH LIMITS, AS DESCRIBED BELOW, ARE STRICTLY ENFORCED.

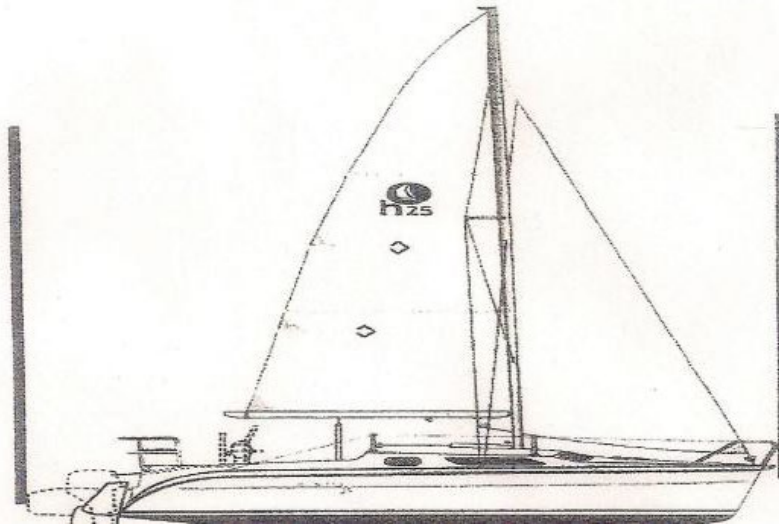

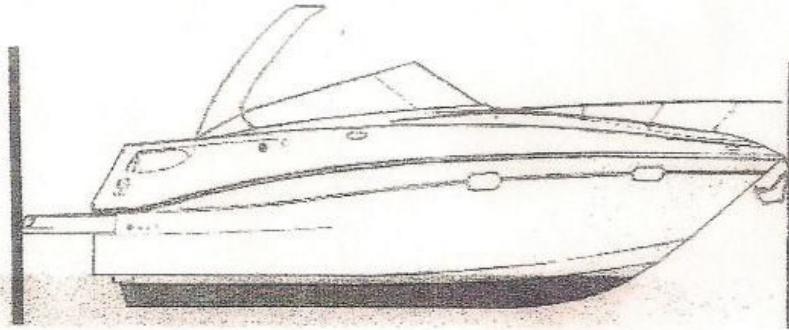

Table A: Boat Slip Length & Maximum Boat Dimensions, by Dock

Docks (A through J)	Number of Slips	Slip Length	Overall Maximum Boat Length (including extensions)	Maximum Width
A thru I, except G - east side	232	20 Feet	25 Feet	8.5 Feet
G - east side	8	28 Feet	30 Feet	10.0 Feet
J	26	30 Feet	32 Feet	12.0 Feet

SLIP OVERHANG LIMITATIONS

WHEN DOCKING YOUR BOAT YOU CANNOT EXCEED ONE OR BOTH OF THE BELOW IDENTIFIED BOW OR STERN OVERHANG LIMITS SPECIFIC TO THE PIER IN WHICH YOUR DOCK IS LOCATED. "TABLE A" ABOVE IDENTIFYING OVERALL WIDTH AND LENGTH LIMITATIONS STILL APPLIES.
